

Company Overview

ADE's mission is to be a leading provider of environmental, geotechnical, occupational hygiene, work health and safety, drilling and laboratory services.

ADE is dedicated to helping our client's business and project succeed, not only by providing quality service, but also by supporting their business interests and construction program. We recognise the value of responsiveness and constantly strive to exceed our clients' expectations whilst constantly improving quality, knowledge and efficiency.

ADE's in-house NATA accredited laboratory provides tangible benefits and savings for our clients by reducing turnaround times and prioritising analysis depending on project requirements. By eliminating the dependence on third party laboratories, our current clients experience significant cost and time savings.

In addition, ADE also provides drilling services with the use of a Comacchio 205 drilling rig capable of undertaking complex environmental and geotechnical drilling services.

Environmental Services

- Project and Site Management
- Waste Analysis and Classification
- Excavated Natural Material (ENM) Testing
- Virgin Excavated Natural Material (VENM) Testing
- Contaminated Land Site Investigations and Management
- Groundwater Investigations and Monitoring
- Acid Sulphate Soil Investigation and Management
- Soil Gas and Vapour investigations
- Risk Assessments

Geotechnical Services

- Compaction Testing
- Nuclear Density Testing
- Dynamic Cone Penetrometer (DCP) Testing
- California Bearing Ration (CBR) Testing
- Particle Size Distribution Analysis
- Geotechnical Investigations
- Borehole Logging and Soil Classification

Occupational hygiene

- Project and Site Management
- Asbestos Material Testing
- Asbestos Materials Inspections
- Hazardous Materials Surveys
- Asbestos Materials Surveys
- Asbestos and Lead Air Monitoring
- Lead in Dust and Paint
- Air Quality Testing
- Microbiological Assessments
- Clandestine Laboratory Investigations

Laboratory Services

ADE's in-house NATA accredited laboratory is accredited to ISO 17025 and is capable of undertaking asbestos, chemical and construction materials testing. For detailed scope of our NATA accredited, visit the NATA web site and search our accreditation number (14664).

Accreditations

- ISO 9001:2008
- AS/NZS 4801:2001
- ISO 14001:2004
- ISO 17025
